Currently, I am pursuing a degree in Software Engineering, a discipline that I am passionate about and to which I dedicate my maximum effort. I consider myself a highly responsible and committed person, with a solid ability to work in a team and outstanding oral communication skills.

I offer a profile as a fullstack developer, with skills in both Frontend and Backend development, backed by a proactive approach and a leadership attitude. I am a strong advocate of active listening and am constantly looking for opportunities to learn and grow, both professionally and personally. I am sure that I can contribute significantly to any team I join.

If you are looking for a committed, enthusiastic professional with a constant desire to improve, do not hesitate to contact me. I am eager to contribute and demonstrate my full potential in each project.

## TECHNOLOGIES

---

## PROFESSIONAL EXPERIENCE

---

### Full Stack Web Developer – Arbi'Track

September 2023 – January 2024

Remote. Buenos Aires, Argentina.

I was hired as a Fullstack Developer in a team of three programmers to lead the initiative to redesign and improve the Arbi'Track website. During my time on the project, I implemented new key functionalities to improve the user experience and modernize the platform.

Using Next.js/Tailwind CSS/Express.
